WEATHER FORECASTS FOR KRAKOW, WARSAW
 AND POZNAN AREAS, 16 - 29 MARCH 1952

I. KRAKOW AREA

The following forecasts for southern Poland were compiled by the State Hydrological and Meteorological Institute in Krakow and are taken from the Krakow newspaper Dziennik Polski. All temperatures are in centigrade.

16 March

Generally quite fair with occasionally increasing cloudiness during the day, especially in the mountains. Highest temperature in the uplands during the day 4 degrees; during the night -5 degrees. Temperature range high in the mountains from -6 degrees to -12 degrees. Light and occasionally moderate westerly and southwesterly winds.

18 March

Haze in the morning. Generally fair. Warm. Highest temperature during the day about 8 degrees; during the night continued light frost. Calm or light variable winds.

19 March

Local haze during the night and in the morning. Fair or quite fair. Temperature range in the uplands during the day from about zero in Slask to -6 degrees in the San River basin; during the night from -8 degrees in Slask to -17 degrees in the San River basin. Prevailing light easterly and northeasterly winds.

20 March

Fair with possible cloudiness in the east. Continued frost. Temperature range in the uplands during the day from 5 degrees in the west to -6 degrees in the east. Temperature during the night from -6 degrees to -14 degrees. Highest

temperature in the valleys and in the foothills during the night about -20 degrees. Temperature range in the mountains from -9 degrees to -16 degrees. Prevailing light and occasionally moderate northeasterly winds.

21 March

Gradually increasing cloudiness. Possible light rain during the night, especially in the mountains. Highest temperature in the uplands during the day slightly above zero; during the night -5 degrees. Temperature range in the mountains from -10 degrees to -6 degrees. Light easterly and southeasterly winds changing to southerly and southwesterly.

22 March

Generally quite fair with occasionally increasing cloudiness. Temperature during the day about zero. Temperature range during the night from -3 degrees to -10 degrees. Light with some moderate northerly winds.

23 March

Generally considerable cloudiness with light rain. Temperature range in the uplands during the day from zero to 6 degrees. Light frost during the night, especially in the San River basin. Light to moderate southerly winds.

25 March

Cloudy and foggy with occasional snow in the east and rain and drizzle elsewhere. Temperature range in the uplands during the day from 8 degrees in the west to about zero in the east; during the night from 2 degrees to -4 degrees. Temperature range in the mountains during the night from -6 degrees to -12 degrees. Light and moderate southwesterly and westerly winds changing to northwesterly in the uplands, strong in the mountains.

26 March

Occasional snow in the morning. Variable cloudiness. Highest temperature in the uplands during the day about zero; during the night -10 degrees. Temperature range high in the mountains from -8 degrees to -12 degrees. Light and occasionally moderate northerly and northeasterly winds. Strong northwesterly and northerly winds in the mountains.

27 March

Generally considerable cloudiness with occasional snow. Temperature range during the day from zero to -3 degrees; during the night from -5 degrees to -8 degrees. Moderate northeasterly and northerly winds.

28 March

In Slask and the Wisla River valley, considerable cloudiness, clearing locally. In the San River basin, cloudy with occasional snow. Temperature range during the day from zero in Slask to -8 degrees in the San River basin; during the night from -8 degrees in Slask to -16 degrees in the San River basin. Prevailing light northerly winds; locally moderate northerly winds.
